

COMBO-CRETE®

Environmental Protection

User Friendly

A Transparent Waterproofing System

Protect Your Investment From Water, Efflorescence And Graffiti Damage

**Service in U.S.
over 35 years**

- + Waterproofing Sealer
- + Anti-Graffiti Sealer
- + Elastomeric Coatings

Approved By :

U.S. Environmental Protection Agency (EPA)

California Air Resource Board (CARB)

Department of Veterans Affairs

Waterproofing Sealer

- + 100% penetrant
- + Easy to Apply
- + Maintenance Free
- + Excellent Warranties Available
- + Breathable - Does Not Trap Moisture
- + Water Base - VOC Complaint
- + No Special Equipment/Training required
- + Will not turn Yellow/Dries Clear
- + In Service for over 35 Years
- + Excellent adhesion - can be painted over
- + Not affected by Weathering or UV Light

Highway Department in Hong Kong

Science Park in Hong Kong

Commercial building in Japan

Superior Grade Waterproofing Layer COMBO-CRETE® KL-25

Swimming Pool in Hong Kong

Hong Kong Central Library

ASD School in Hong Kong

Combocrete provides waterproofing solutions from basement to roof. Contact carry an extensive range of waterproofing and sealing products to prevent water penetration.

High Penetration (25mm Thickness Protection Layer)

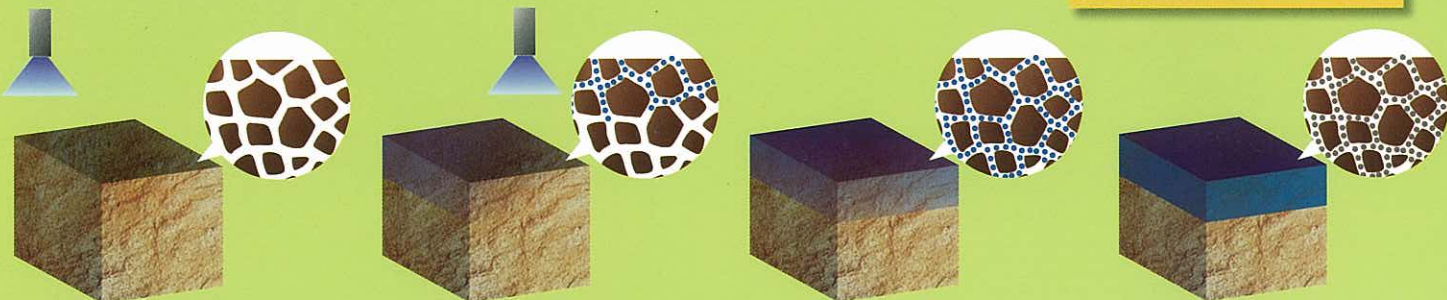

- Resists Flaking - Excellent Adhesion
- Best Warranty in the industry
- Long Life Span - Up to Ten Years
- High Gloss - Medium Gloss - Flat Gloss Available
- Water Base - VOC Compliant - Solvents Available
- No Special Equipment/Training required
- Will not turn yellow
- In Service for over 35 years
- UV Resistant - Not affected by Weathering
- Mould resistant
- Apply any finishing directly

APPLICATIONS

Superior Grade COMBO-CRETE® KL-25

- Concrete Substrate
- Superior Grade COMBO-CRETE KL-25

COMBO-CRETE® Microcrete Silane Treatment

Diamond Hill Crematorium in Hong Kong

Las Vegas Water District

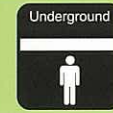

Hong Kong Disney Land Space Mountain

High Penetration (25mm Thickness Protection Layer)

- Resists Flaking - Excellent Adhesion
- Best Warranty in the industry
- Long Life Span - Up to Ten Years
- High Gloss - Medium Gloss - Flat Gloss Available
- Water Base - VOC Compliant - Solvents Available
- No Special Equipment/Training required
- Will not turn Yellow/Dries Clear
- In Service for over 35 years
- UV Resistant - Not affected by Weathering
- Mould resistant

APPLICATIONS

COMBO-CRETE® KL-23

2nd Generation Cementitious Waterproofing Layer

Main Developer in Hong Kong

Plover Cove Road Market in Hong Kong

Cost Effective

- Deep penetration into substrate
- Prevent chloride ion intrusion
- Efflorescence reduction
- Ready to use
- Protection not effected by weathering or UV light
- V.O.C. complaint
- Maintenance free
- Breathable - Does not trap moisture
- Warranty available
- Mould resistant
- Apply any finishing directly

APPLICATIONS

COMBO-CRETE®

Traditional waterproofing system

25mm

1-3mm

Elastomeric Coatings

Weather Resistant, 500% Flexible Coating

- + Unlimited Color Selection
- + Best Warranty in the Industry
- + Excellent Hide and Adhesion
- + Bridges Cracks
- + In Service for over 30 Years
- + Extended Warranties Available

T.W.G.H. Headquarter in Hong Kong

COMBO-CRETE® KL-18

Tung Wah Group of Hospitals in Hong Kong

Pizza Hut in Hong Kong

Unlimited color selection waterproofing membrane

- o Unlimited Color Selection
- o Weather Resistant, 500% Flexible Coating
- o Best Warranty in the Industry
- o Excellent Hide and Adhesion
- o Tough and durable **100% acrylic formula**
- o Bridges Cracks
- o In Service for over 30 Years
- o Cost Effective
- o Extended Warranties Available

APPLICATIONS

External wall

Toilet

Bathroom

Roof

COMBO-CRETE® Color-pene *Natural Look Fair-Face Concrete Coating*

Before

After

True Penetrating Stain

- o Semi-Transparent Finishes
- o Unlimited Color Selection
- o Greatly Reduces Construction Costs
- o Water Base - VOC Compliant
- o Tough & Durable Penetrating Stain
- o Excellent Hide & Adhesion
- o In Service for over 25 Years
- o Dries to a Flat Finish
- o Resists Fading and Chalking

APPLICATIONS

External wall

Anti-Graffiti Sealer

Easy to Apply - no mixing

- + Best Warranty in the Industry
- + For Painted/Unpainted Surfaces
- + Water Base - VOC Compliant
- + No Special Equipment/Training required
- + Will not turn into Yellow/Dries Clear
- + In Service for over 25 Years
- + Interior and Exterior Use

Victoria Park in Hong Kong

COMBO-CRETE® Stone Treatment ST-21

U.S. Jewelers building

Ma On Shan Open Space in Hong Kong

Moisture Resistant for Marble, Granite and Sandstone

- o Heavy-duty water repellent protection
- o Efflorescence reduction
- o Maintenance Free
- o Excellent Warranties Available
- o Breathable - Does Not Trap Moisture
- o Water Base - VOC Compliant
- o No Special Equipment/Training
- o Does Not Yellow/Dries Clear
- o Protects wood from swelling, shrinking or grain raising
- o Not affected by Weathering or UV Light and mould resistant

APPLICATIONS

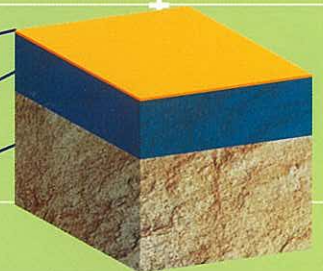

Combo-Proof System (CPS)

- + Double Protection
- + High Penetration (25mm Thickness Protection Layer)
- + Service in US over 35 Years
- + 500% Elongation Coating
- + 15 years Warranty

500% Elongation Coating

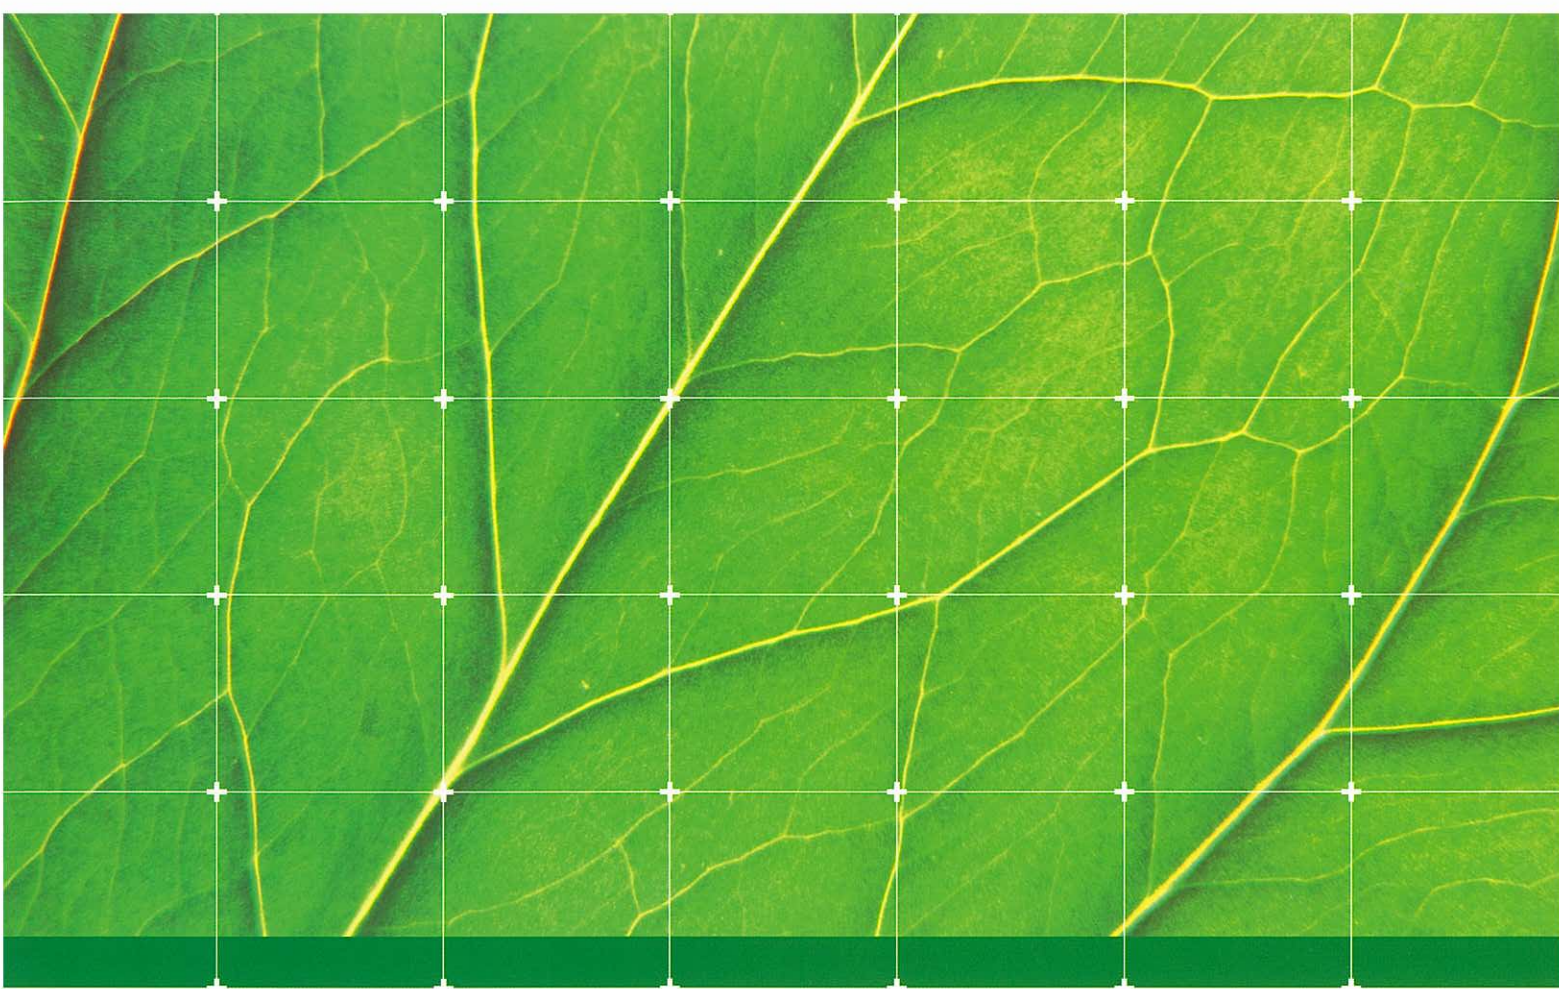

25mm Thickness Protection Layer

Concrete Substrate

APPLICATIONS

PROPERTY	VALUE	TESTING METHOD
Initial cure	<10 seconds	
Ready for light traffic	Max.30seconds	
Compressive Strength	Increase <22.5% (psi)	
Numerical scale cycle	Passed	ASTM C-672 Freeze-Thaw
Water Permeance of Masonary	Class E	ASTM E-514 Water Permeance
Exposure test for Efflorescence	No efflorescence indicated	ASTM C67-75 Efflorescent Reduction
Dynamic Elongation	510%	ASTM D-2370-82
Shore Hard A	89	ASTM D-2240-86
Tensile Strength	260 PSI	ASTM D-2370-82
Water Vapor Trans	Breath @20 mils Dry	ASTM E-96
Mold Resist	Passed	Fed Test 141B,6271
Mildew Resist	Passed	ASTM D-3273/3274
Wind Driven	98 mph Wind Driven	
Federal Specification	Passed-No ater Absorption	TT-C-555b
Salt Spray	500 Hours-No Change	ASTM B117-64
Scaling Resist 25 Cycles	Visual Rating-0 Mass-0	ASTM C672
Weatherability	4500 Hours-Passed	ASTM C28
