King's Park

Project:

King's Park Hockey - 1000m²

Requirement:

The old surface was rough and not leveled.

An easy cleaning, anti-skid and oil resistant floor finish is required. The topping should be long lasting, decorative and UV resistance.

System:

Peacofloor 9003 high strength cementinous self-levelling compound was applied to smooth the substrate..

Peacofloor 190W, water based acrylic polurethane floor finish was selected as finish coat.
