

Job Reference

Queen Elizabeth Stadium
Peacodeck 61

Project:

Arena & spectator area- 3000m²

Requirement:

The old surface was rough and not leveled.
An easy cleaning, anti-skid and oil resistant floor finish is required.

System:

Peacofloor 210 high strength epoxy self-levelling compound was applied to smooth the substrate. Peacofloor 250, solvent free boardcast epoxy system was selected to provide anti-slip, abrasion resistance and easy cleaning properties.
