

KCRC-Fo Tan Station 3 Coats Anti-Corrosion System

The structural steel was grit-blasted to SA2.5 and primed with Peacopoxy Zinc Rich Epoxy Primer.

Coating System

Peacopoxy Zinc Rich Primer	75 microns
Peacopoxy Mio RC	100 microns
Peacopour RC Finish	50 microns

- Peacopour RC Finish provides excellent gloss and color retention.
- The recoatable capability eases maintenance procedure.
- High build property, 100 microns can be achieved in single application.
